Nur Azlina Mohamed Mokmin   (PhD)
Universiti Sains Malaysia, Malaysia

European Proceedings of Multidisciplinary Sciences (EpMS) is an open access, peer-reviewed series. EpMS dedicated to offer a platform to encourage academics to publish original articles on the current developments in Multidisciplinary Sciences.

The EpMS publishes theoretical, experimental or application-based works with the objective of contributing to a greater understanding and development of multidisciplinary sciences. EpMS publishes edited volumes based on the outcomes of conferences.

Once published, all proceedings are submitted for evaluation and possible coverage in **Web of Science Core Collection™ Conference Proceedings Citation Index - Social Sciences & Humanities (CPCI-SSH)**.

Preface

On behalf of the organizing committee, I am pleased to present the proceedings containing selected, peer reviewed papers from the I International Conference "Modern Trends in Governance and Sustainable Development of Socio-Economic Systems: From Regional Development to Global Economic Growth" which was held on 20-22 September 2022 in Kadyrov Chechen State University, Grozny, Russia.

The objective of the conference is to familiarize with the results of the latest scientific developments and the best world practices for the implementation of agro-climatic projects, the achievement of carbon neutrality, the protection and restoration of ecosystems, and the conservation of biodiversity.

Conference sections as follows:

- Section 1. Ecology and modern ecosystems within the framework of sustainable development;
- Section 2. Knowledge management, Digital technologies and innovations;
- Section 3. Modern aspects of socio-economic development at mega- and meso-levels;
- Section 4. Promising technologies for sustainable development in the agricultural sector of the economy;
- Section 5. Green technologies in industry and construction;
- Section 6. Modern trends in the transformation of law in the context of socio-economic development;

This conference encourages researchers, institutions, academics, and policymakers at all levels to exchange recent discoveries, information, problems, and challenges encountered. In addition, the objective of this conference includes identifying ideas for solutions that are fully realised in the present and compatible with the subject of sustainability and modernity in accordance with the current situation.

The review process for the papers was stringent. Each submission was subjected to a double-blind review process by two reviewers. Moreover, every paper submitted is required to have a copy of the Turnitin plagiarism check together with the copyright form. The number of submissions received was 287, reviewed was 252 and the number of submissions accepted was 135 indicating an acceptance rate of 53%.

We thank to all contributors, speakers, participants, sponsors and etc. We would like to express our high appreciation to the organizers, members of the program committees and reviewers of MTMSD-2022 for their hard work. Special acknowledgements go to European Publisher.
